RESELLER

GLOBE 24-7

www.globe24-7.com

"We searched long and hard to find a suitable HR management system that would support our corporate Head Office and 7000+ expatriate and national employees in Africa. The Ode system was multi-lingual, multi-currency, easy to use and quickly deployed. I'd highly recommend it to anyone wanting to move off spreadsheets, increase security and better manage their 'human' resources.

Sylvie Huyskens, Project Manager, IAMGold Corporation (past)

Globe 24-7 Company Profile

Globe 24-7 is an international human resource consulting and search firm servicing the global mining, oil & gas and energy industries.

With a team of tertiary qualified and site-experienced HR professionals, Globe's Human Resources System division has formed a strategic partnership with Ode Systems Inc. to implement the Hubhub HR information system within the international resources sector.

Hubhub is a cost effective, simple to use HR management system that will take your business away from manual spreadsheets and legacy databases and into one centralised HR data system that supports industry and company compliance requirements.

International Coverage

Authorised Platinum Reseller Partnering with Ode Systems Inc.

Globe 24-7 has been providing Human Resource Consulting services within the global resources industry for over 10 years and was recently selected by Ode Systems Inc. to form a strategic partnership to provide distribution for their internationally acclaimed Talent Management system to the mining and energy sectors in Australia, Africa and various other regions in which it operates.

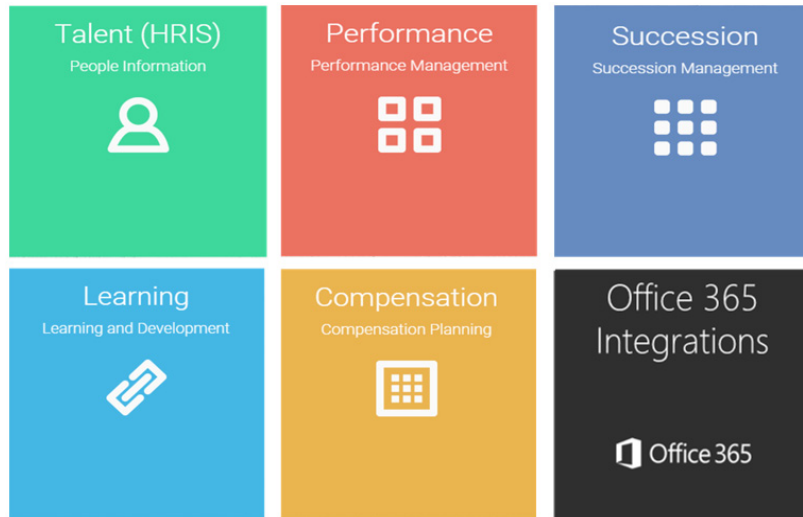

Ode's Talent Management platform Hubhub has been specifically developed to integrate HRIS, performance, succession, compensation, recruitment, learning management, talent acquisition and business intelligence tools for remote and corporate operations.

"The selection of Globe 24-7 to exclusively represent our Talent Management suite signifies an enormous amount of respect that we have for their organisation. Their site-based and corporate head office HR experience enables them to truly understand what HR Managers need from a HR Information System and their Project Management team is world class. We are very pleased to appoint them as our Authorised Reseller."

Daniel Mayer, Ode Systems Inc. CEO

What's all the Hubbub

A HR System that Delivers Solutions

System Highlights:

- Developed specifically for the mining, energy and resource sectors, Hubbub provides full expatriate & national employee management on residential & FIFO rotation & can be deployed in English, French, Spanish, Portuguese and Chinese.
- Hubbub provides extensive reporting functionality with the ability to easily, quickly and accurately produce dozens of industry specific reports such as head count, visa expiry, employee turnover, compensation, leave & organisational charts.
- Extensive security to ensure sensitive HR data (eg. compensation) is not exploited.

- Suitable for junior, mid-tier and large-scale multi-site organisations using a rapid deployment model cloud based solution.
- Supported by a global team that provides 24 hour, 7 days per week support.

Core Modules:

- Talent™: Hubbub's core Human Capital Management (HCM) system offering real-time visibility into the entire global workforce.
- Performance™: Performance management module to manage the full performance assessment process.
- Compensation™: Automates and streamlines the salary, short and long term

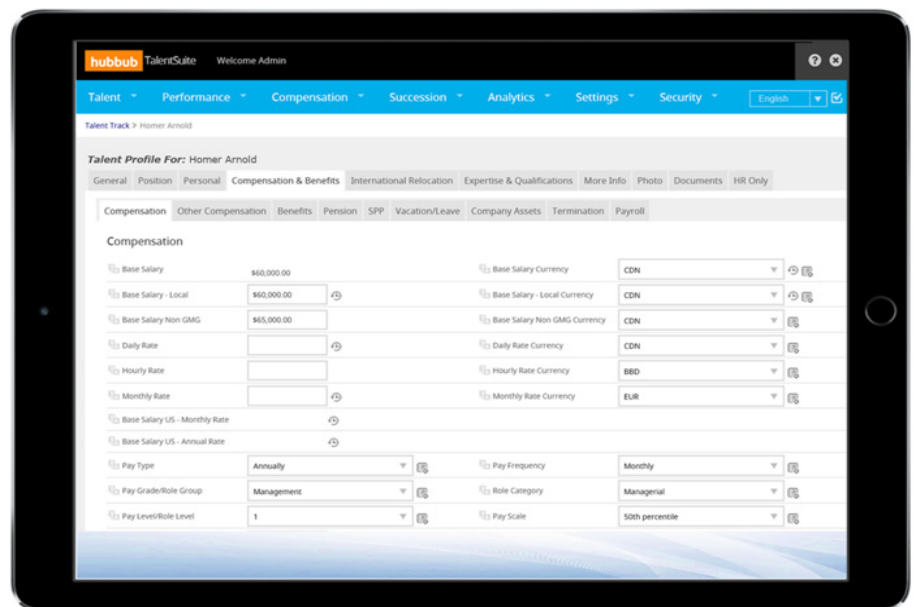

- incentive planning process integrating seamlessly with existing payroll provider.
- Succession™: Incorporates information from TalentTrack and PerformanceTrack to create succession profiles for national and expatriate employees.
- Learning™: Intergrated Learning and Training management system.

A Cost Effective and Powerful HRIS
